No problem - I figured that.

Talk to you tomorrow!

Sorry I realize I did not answer your questions under #4. This paper is really subsumed/incorporated into the other papers so will not be developed.

No. I think the list of issues from the workgroup call is closer than I thought, just a few questions (I think it's how you described and grouped things.)

Below is the general draft list of topics I was going to include on the agenda (not spelling all the sub issues out, as it's just an agenda). But in terms of the table, I do have some questions. **See the attached markup of the workgroup call with my questions.**

I put in italics the issues I thought would be for discussion:

So, this document may closely align with what you did

Hi Kathy - I had done a draft agenda yesterday and looked at all the tables. This list may not match up exactly so I'll need to relook again and then send you a longer reply.

Just a reminder that the workgroup discussed these and we discussed with John. Just so we are not reinventing the wheel. These are what are to be shaded. I think John agreed with all.

Hi Nizanna- We discussed the paper I sent out- how we would identify certain issues that we'd discuss at the actual options selection meeting and others that we'd get concurrence by other means. I'm attaching Kathy's notes as they describe the workgroup feedback.

Hi Ruth and Kathy,

I'm so sorry that I was unable to make the meeting yesterday -- I ended up not being able to work over the lunch hour because **Ex. 6 Personal Privacy (PP)** Please let me

know if there are any updates (aside from pushing back options selection) or any next steps that I should be working on.

Thanks & hope that you both have a good weekend!

As discussed, I'm adding meetings to the off-week so we can try and be ready for options selection mid to late February (meeting has not been set but request went forward). I have only scheduled these through the beginning of March. We can reassess at that time.

I know this is a lot of time, and I really appreciate all your effort given so far. What we have crafted so far is great. I know the extra time may mean you can't attend all meetings, but if you cannot attend, PLEASE, review the material and send your comments to the issue lead with a copy to myself and Ruth so that we are sure to have your input but are still able to move this forward. Thank you.

Note: I'm ending 10 min before the hour to allow folks a quick break before the monthly call.
